**\*EXAMINER:** Initial if referenced

The above cited prior art is pertinent to claims 1-4, 6, 8, 10, 11, 26-33, and 40-53 of application number 10/669,596. Of importance is that the biomolecular substances are all nutrients and that both inventions use a non transdermal apparatus to increase muscle strength. Such a non transdermal patch is even mentioned in the provisional application above.
